MEMORANDUM FOR:

[redacted]
Office of Legislative Counsel

STAT

FROM:

[redacted]
Chief, Intelligence School
Office of Training

SUBJECT:

Introduction to CIA (ITCIA) Course

1. In an effort to measure what students have learned through lectures in the ITCIA course, we are developing a set of test questions to be administered both before and at the conclusion of each running of the course. Since you will be lecturing to the next ITCIA, we would appreciate your help in this. Specifically, we would like you to pose a question covering the most important fact you want the students to remember from your talk.

2. In addition, we plan during class discussions to sample student attitudes toward topics covered in the course. Could you, therefore, also provide us with a second question related to the attitude toward your topic that you hope the students will gain from your lecture.

3. In order to incorporate the test in the next running, we will need your response by 20 January. Please send your questions to [redacted] Room 926, Chamber of Commerce Building. For any further clarification, call her on extension [redacted]

STAT

4. We very much appreciate your support of our training programs and hope that the feedback realized from this testing exercise will be helpful to the speakers and to the training officers.
